

# AMDA INSTITUTE OF HEALTH SCIENCE

## Damak-2

### Reports on TVET Fair

**DATE:** 2083.02.5

**VENUE:** Adarrsha Secondary School, Biratnagar, Morang

#### INTRODUCTION

AMDA Health Institute (AIHS), Damak participated in the TVET Educational Fair organized under the initiative of the Council for Technical Education and Vocational Training (CTEVT). The primary objective of participating in the fair was to promote the institute's academic programs, showcase practical learning activities, and provide information regarding career opportunities available through technical and vocational education.

The Council for Technical Education and Vocational Training (CTEVT) plays a key role in promoting technical and vocational education in Nepal. A TVET Educational Fair was organized to raise awareness among students about skill-based education and career opportunities.

#### ACTIVITIES

During the fair, AMDA Health Institute actively engaged visitors through various promotional and educational activities

- **Exhibition Stalls:** Our institutes displayed information about their academic and training programs, including Nursing, Medical Laboratory Technology, General Medicine, Physiotherapy, and Radiography. Visitors were provided with detailed information regarding admission requirements, course structures, and career prospects.
- **Live Demonstrations:** We perform real skills demonstration like measuring vital signs (blood pressure, pulse) and blood sugar testing to show practical learning. The demonstrations attracted significant interest from visitors and highlighted the practical nature of TVET programs.

- **Career Counselling:** career counselling sessions were organized to guide students on various career pathways, training opportunities, and employment prospects available after completing technical and vocational education programs. Visitors were able to interact directly with faculty members and professionals.
- **Hands-on learning experiences:** Students shared their academic and practical learning experiences with visitors. Their interactions provided valuable insights into student life, skill development opportunities, and future career possibilities within our institution sector.

## **Achievements**

The participation enabled the institute to effectively promote its programs and strengthen its visibility among prospective students and stakeholders. A large number of visitors visited the stall and expressed interest in the health science programs offered by the institute.

## **Conclusion**

The participation of AMDA Health Institute in the TVET Educational Fair was successful in promoting the institute's educational programs and creating awareness about skill-based health science education. The event served as an effective platform to interact with prospective students, showcase practical competencies, and highlight the institute's contribution to producing skilled healthcare professionals.
