Comprehensive Community Field Practicum Report
(Grand Presentation)-Group B

Date: - 2083-03-22

Venue:-Mangalbare

Grand presentation is an important academic activity for General Medicine students that provides an opportunity to present and discuss community work/data in a systematic manner. It helps students integrate theoretical knowledge with practical experience, improve community reasoning, and develop communication and presentation skills. Through grand presentation, students gain confidence in community diagnosis and professional practice.

Common objectives include:

- To enhance knowledge about common community health problems and their management
- To develop skills in community assessment, diagnosis, and intervention
- To improve communication, counseling, and health education skills
- To apply theoretical knowledge in real community settings
- To strengthen problem-solving and decision-making abilities in public health care
- To promote teamwork, leadership, and professional confidence among students
- To increase understanding of preventive, promotive, and rehabilitative health services in the community.

Activities:

As per our curriculum of PCL General Medicine 3rd year students were posted for 60 days regarding “**Comprehensive Community Field Practicum**”, community posting was conducted from 1st Jestha 2082 to 32nd Ashar 2083. Students were divided into two groups (18 each) and first group being posted at Madan Bhandari Trauma Center, Urlabari successfully completed community posting.

Conclusion:

The community field posting (residential) was completed successfully as per objectives.

Thankyou
AIHS, Damak
